

CODAN HF Mobile Station Configurations - Voice & Data Communications (and sending Email)

CODAN mobile HF transceivers have the following range of features:

- **Made tough:** All CODAN transceivers are designed to operate and survive in the harshest environments. Our mobile transceivers are rugged and reliable.
- **Easy to install:** CODAN HF transceivers are the smallest and easiest to install. Mobile transceivers feature a small control head/handset for simple installation, depending on the model.
- **Auto tuning:** CODAN has designed an automatic tuning whip antenna to work with the full range of mobile transceivers. The mobile antenna is designed to withstand severe environmental conditions and vibration. It will tune all frequencies within seconds.
